School of Education

JEFF PASSE, DEAN

Creating Agents of Change
Creating Agents of Change is the conceptual framework for professional education at The College of New Jersey, guiding all programs in the School of Education and throughout the College. Based on current thinking, research, and practice regarding the nature of learning, teaching, schooling, and leadership, the framework supports the creation of an informed, active, and reflective educator and practitioner who is effective in influencing positive change in multiple academic, clinical, and professional settings. The mission statement and guiding principles define our shared vision of Creating Agents of Change.

Mission Statement
Consistent with The College of New Jersey’s clear public service mandate, The School of Education is committed to preparing exceptional teachers and clinicians. The basic tenet underlying our practice is our accepted truth that all individuals can learn and grow, and deserve schools/clinics and teachers/clinicians that respect their individual needs and circumstances while striving to give them the knowledge and skills to be successful in the larger society. Furthermore, we accept as truth the ideal that education is key to addressing the inequalities that exist in society, and that teachers and other school professionals can and should be agents for positive social change.

Therefore, through ongoing partnerships with our colleagues in K–12 education and state government, faculty of the School of Education remain dedicated to the core mission of producing high-quality professionals who possess solid content knowledge, demonstrated clinical competence, and a clearly articulated belief that all individuals deserve the highest quality practices in their schools and clinics.

Guiding Principles
The following five principles form a statement of beliefs that provides a framework that guides our day-to-day practice.

Principle One: Demonstrating Subject Matter Expertise. We believe that teaching is a profession. As such, professional teachers should develop a solid base of knowledge in such areas as literacy, numeracy, child development, learning theory, exceptionality, and pedagogical techniques. All teaching candidates will complete their programs at The College of New Jersey eligible to be considered “highly qualified.”

Principle Two: Demonstrating Excellence in Planning and Practice. We believe that our professional candidates must develop sophisticated pedagogical knowledge to design and implement effective instruction or interventions. They should possess an in-depth understanding of human growth and development to enable them to make developmentally appropriate decisions. They should be fully immersed, in both the college classroom and in the field, in a social-constructivist perspective of learning and its implications for student-centered planning, scaffolded learning experiences, and the use of a wide repertoire of instructional strategies, including appropriate use of current technology. We believe that our professional candidates should appreciate the importance of a productive learning environment in which teachers and children communicate effectively and respectfully.

Principle Three: Demonstrating a Commitment to ALL Learners. We believe that our professional candidates should have the skill and the will to help all learners reach their full potential. Our candidates must believe in the ability of all students to learn and grow, must be able to implement the principles of culturally responsive teaching and differentiated instruction, and must understand the importance of partnerships with families, community members, and other professionals to address children’s diverse needs. We believe our candidates need to experience diverse teaching/clinical settings in their programs at TCNJ and that students should be encouraged and supported to take advantage of opportunities to develop global perspectives through study abroad and international student teaching.

Principle Four: Demonstrating a Strong, Positive Effect on Student Growth. We believe that our professional candidates must see their success in terms of the progress made by their students. We are supportive of the underlying principle that all children should make progress in school. Our candidates must understand how to accurately assess their learners’ strengths and needs through a variety of assessment tools, and how to use assessment information to provide effective data-driven instruction or interventions. Our candidates must also demonstrate an ability to effectively communicate information to a variety of audiences, including parents and guardians.

Principle Five: Demonstrating Professionalism, Advocacy, and Leadership. We believe that our professional candidates need to continue to develop their theoretical knowledge and practical skills well after they complete their program and enter their chosen career. As we strive to admit highly capable, high-achieving candidates into our program, we believe that our candidates are in a unique position to become future leaders, advocating not only for the needs of children and youth in New Jersey, but also for the educational professions at large. Our programs focus on developing reflective thinking skills, as well as providing opportunities for our candidates to participate in various field experiences that require them to see themselves as professionals and to take on leadership roles.

Graduate Study in Education
Education at the graduate level is vital to realizing the School of Education’s mission in the preparation and ongoing professional development of educators and clinicians. Through graduate study, students may prepare to enter a new field or to develop and enhance skills and abilities critical to maintaining excellence in the practice of the profession to which they already belong. Graduate study emphasizes depth of knowledge; the importance of drawing critical connections among theory, research, and practice; and the ongoing need to approach one’s work in a spirit of inquiry. The degree and non-degree programs described below within departments exemplify the School of Education’s commitment to providing leadership and maintaining excellence across the continuum of professional practice.

In addition to meeting all specific program requirements and passing all state-required licensure exams, the following items are required for NJ State-issued certification to work in NJ schools:

1. Candidates for instructional certificates shall have completed a course or shall pass an examination in health and physiology issues. [NJ Administrative Code, section 6A:9-5.9]

Information is available at the TCNJ Certification Office.

3. Candidates for all types of certificates must also demonstrate proficiency in basic skills as evidence by a passing score on a Commissioner approved test of basic skills, such as the GRE, SAT, or ACT. If a passing score is not demonstrable, the candidate must take and pass the Praxis Core exam (separate from the Praxis I). More information can be obtained from the certification webpage found here: http://education.tcnj.edu/offices-partnerships/certification/
Master of Arts in Teaching

The Master of Arts in Teaching program consists of a core of courses that all degree candidates will complete, plus various specialization courses to meet state certification requirements in a particular discipline. The specialization disciplines currently include early childhood education, elementary education, secondary education, and special education.

The program provides an immersion option that will allow a cohort of full-time students to complete the program in one academic year beginning and ending with a summer session. Students who are employed full time may complete the new program on a part-time basis beginning in the summer or fall.

In order to become certified, students successfully completing the Master of Arts in Teaching program must take and pass the PRAXIS Examination in their area of specialization and must also complete the state of New Jersey hygiene-physiological requirement.

Early Childhood Specialization
(ELEC_MAT02, ELEC_MAT03)
Program A—No Prior Teaching Certificate (ELEC_MAT02)
Program B—TCNJ Alternate Route P–3 Certified (ELEC_MAT03)

Jody Eberly, Coordinator, Graduate Program in Early Childhood Education (MAT)

In order to earn P-3 certification through the P-3 Alternate Route, students must obtain a Certificate of Eligibility through the NJDOE (this requires completion of the P-3 24-hour pre-service course and a passing score on the state-mandated PRAXIS test for P-3 certification); must complete our 15-credit sequence of courses; and must complete the Provisional Teaching Program through their school/district.

Elementary/English as a Second Language (certification) Leading to a Master of Arts in Teaching (MAT) Degree for Students Interested in Urban Education Specialization (ELEU_MAT01)—Five-Year Program (for TCNJ students only)—Full-Five Year Undergraduate/Graduate Program

Lynnette Mawhinney, Interim Coordinator, Graduate Program in Urban Education

The Department of Elementary and Early Education offers a program that prepares students to be teachers in urban schools. This five-year program, featuring a double major with dual certification, culminates in a Master of Arts in Teaching degree and New Jersey teaching certification in either Elementary Education or Early Childhood Education and English as a Second Language.

At the end of the fourth year, students earn a bachelor’s degree in their liberal arts major and elementary or early childhood education. The course of study continues through the following summer and academic year and culminates in a Master of Arts in Teaching degree. Graduates of the program are considered “highly qualified” teachers and therefore meet current requirements for obtaining employment in New Jersey school districts.

Admission Requirements:
Only students who have completed a bachelor’s degree in the elementary education program at TCNJ may matriculate into ECAU_MAT01. Students must have a GPA of 3.0 to matriculate into the fifth-year portion of the program.

Grade point average on a State approved test of basic skills (e.g.) GRE or Praxis Core—not the same as the Praxis exam for certification). For more information visit the certification website here: http://education.tcnj.edu/offices-partnerships/certification/.

Graduation Requirements:
Cumulative GPA of 3.0 in the MAT program

Health and Physical Education Specialization (HPEM_MAT01)

Anne Farrell, Coordinator, Graduate Program in Health and Physical Education, MAT

The Master of Art in Teaching Health and Physical Education prepares students to become certified teachers in health/physical education in K–12 programs. The program requires all degree candidates to have completed 45 hours of undergraduate content specific course work. Within these 45 credits, 30 (minimum) must be specific to one of two specified content areas (physical education or health) and 15 credits (minimum) must be specific to the other content. Within the 45 credits, 12 credits (minimum) must be composed of upper level courses (300/400 level).

The program is designed to allow a cohort of full-time students to complete the MAT in one calendar year beginning and ending with a summer session. Students who are employed full time may also elect to complete the program on a part-time basis.

In order to become certified, students successfully completing the Master of Arts in Teaching program must take and pass the PRAXIS Examination in their area of specialization (Health and Physical Education) and must complete the state of New Jersey hygiene-physiological requirement.

**Education of the Deaf and Hard of Hearing/Elementary Education (DHH_A_MAT01)—Five-Year Program (for TCNJ students only)—Full Five-Year Undergraduate/Graduate Program**

Barbara K. Strassman, Coordinator, Graduate Program in Deaf and Hard of Hearing/Elementary Education (MAT)

The Department of Special Education, Language, and Literacy offers a program that prepares students to be teachers of the Deaf and Hard of Hearing. This five-year program, featuring a double major with dual certification, culminates in a Master of Arts in Teaching degree and New Jersey teaching certifications in education of the deaf and hard of hearing and in elementary education. The program meets the standards and requirements of:

- Council for Accreditation of Educator Preparation (CAEP)
- New Jersey State Department of Education
- Council on the Education of the Deaf (CED)

At the end of the fourth year, students earn a bachelor’s degree in their liberal arts major and in education of the deaf and hard of hearing without certification. The course of study continues through the following summer and academic year and culminates in a Master of Arts in Teaching degree. Graduates of the program are then eligible for certification as Teacher of the Deaf or Hard of Hearing, Oral/Aural Teacher of the Deaf or Hard of Hearing Sign Language Communication and Elementary School Teacher in Grades K-6, all subjects. Candidates are also “highly qualified” to teach any category of learners in grades K–6. Above the 6th grade level, candidates are eligible for employment as support and resource teachers, as well as consultative capacities including supplemental instruction to deaf or hard of hearing students. Depending upon college course work and examinations passed, candidates may be eligible for additional endorsements (certificates), enabling them to teach all students in subject areas above the 6th grade instructional level, where eligibility for employment varies with the nature of the teaching position and school/districts’ classification of learners related to the position.

**Admission Requirements:**
Only students who have completed a bachelor’s degree in the Deaf/Elementary Education program at TCNJ may matriculate into the MAT. Students must have a minimum GPA of 3.0 to matriculate into the MAT portion of the program.

Passing score on a State approved test of basic skills (e.g.) GRE or Praxis Core—not the same as the Praxis exam for certification). Master of Arts in Counselor Education
(COUN_MA_01), (COUN_MA_06), (COUN_MA_07)
Atsuko Seto, Chair, Department of Counselor Education

The Department of Counselor Education at The College of New Jersey is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Admission Requirements:
Bachelor’s degree from an accredited or approved institution
Graduate Record Exam (GRE)—For test waiver information, please visit http://graduate.tcnj.edu/apply/. Interview (to be arranged by the department)

Candidates for the Masters in Arts in Counseling programs must present a bachelor’s degree from an accredited college or university, meet college matriculation requirements, and attend an interview with the department faculty. In addition to the above criteria, consideration will be given to the candidate’s openness to personal and professional self-development, potential success in developing interpersonal relationships in a counseling context, and prior relevant experiences. Meeting these minimum criteria does not guarantee admission to the department.

Those seeking Pennsylvania school counselor certification must also present evidence of their successfully passing the School Guidance and Counseling Praxis Test and a series of Pre-Professional Skills Tests, all of which are administered by the Educational Testing Service (ETS).

Graduation Requirements:
1. In accordance with college policy, all graduate students must maintain a cumulative grade point average (GPA) of 3.0. Any student whose GPA falls below 3.0 will be placed on academic probation and will be dismissed if an overall GPA of 3.0 is not achieved by the end of a probationary semester.

2. A minimum grade of B or better in COUN 501, 670, 675, 690, and 693 (or 694/695) is required. With Departmental approval students who receive a grade of B–, C+, C, or C– in these courses or their prerequisites will be permitted to retake the course(s) in question only once to improve their grade and remain in the program. Failure to obtain a B or better in the second attempt will result in automatic termination. No student who has received a grade of B– or lower in a prerequisite course(s) will be permitted to enroll in COUN 670, 675, 690 or 693 (or 694/695). A student receiving an “F” grade in any course will automatically be denied continuation in the Department of Counselor Education program.

3. Students are also responsible to obtain, familiarize themselves with, and abide by the department’s specialized policies and procedures as documented in the most recent edition of the department’s student manual.

Mark Woodford, Coordinator, Post-Graduate Program in Marriage and Family Therapy

24-credit minimum

The Educational Specialist (EdS) in Marriage and Family Therapy degree program is designed for master’s-level professional counselors who wish to pursue advanced study in marriage and family therapy. EdS applicants who hold a master’s degree from a CACREP-accredited counseling program or its equivalent and complete the EdS degree meet the educational requirements for licensure in marriage and family therapy in New Jersey. Additional courses required for students in a closely related field may include the following:
- Introduction to Counseling (COUN 501)
- Counseling Theory (COUN 670)
- Measurement and Evaluation (EPSY 643)
- Statistics and Research (COUN 515)
- Lifespan and Human Development (EPSY 520)
- Multicultural Counseling (COUN 530)

Admission Requirements:
Master’s degree in counseling or related field; two years’ counseling experience or a supervised practicum and internship
All applicants must complete a departmental screening interview prior to admission

Graduation Requirements:
Students will be required to complete a minimum of 24 graduate credits in marriage and family therapy
Students must complete the EdS program with a minimum of a 3.0-academic average, having received a grade of B or better in all required coursework. Students who receive a grade of B–, C+, C or C– in a required course will be permitted to retake the course(s) in question only once to improve their grade and remain in the program. Failure to obtain a B or better in the second attempt will result in automatic termination. A student receiving an “F” grade in any course will automatically be denied continuance in the Department of Counselor Education program.

*The TCNJ Clinic is an entity within the School of Education. Because live supervision and observation are an integral part of the systemic training, students in the EdS Program in Marriage and Family Therapy will be expected to provide therapy to several relational cases during their practicum and intern year. In the Family Lab, they will be expected to observe families either from behind a one-way mirror or on closed-circuit TV. Supervision will be provided by faculty and/or adjunct faculty with experience in family therapy. Confidentiality will be strictly maintained, and violation of the stated policy will be considered grounds for dismissal. This is a training opportunity that provides immediate supervi-
tion and discussion. It affords the best treatment possible to families who have the benefit of team-supervised student therapists working with them.

**Student Assistance Coordinator Program (COUN_CER02)**

Mark Woodford, Coordinator, Graduate Program in Student Assistance Coordination

**Instructional Licensure, Teacher of Preschool–Grade 3 (ELEC_SCT03)**

Jody Eberly, Coordinator, Graduate Program in P–3 Certification

The College of New Jersey/Early Childhood Education (P–3) Specialized Alternate Route or Endorsement on New Jersey Instructional License.

**Program Statement:**

The need for early childhood education specialized alternate route licensure is shown by evidence specific to The College of New Jersey, current changes in the state, and national research on the importance of specialized knowledge in early childhood education. The College of New Jersey has offered a highly regarded early childhood education program for over 150 years. Recent court-mandated and legislative initiatives have resulted in mandatory preschool for 4-year-olds in over 150 New Jersey school districts and for 3-year-olds in the 30 neediest of these districts.

It is clear from the research that effective early childhood education programs for children from low-income families have teachers with intensive and specialized training in the particular educational and social needs of young children and who have the broad education represented by a bachelor’s degree. Employing teachers with state certification in early childhood education, or its equivalent, is strongly related to positive outcomes for young children. The National Academy of Sciences Committee on Early Childhood Pedagogy (2000) has joined the NAEYC and the NEA in recommending specialized certification or teachers of young children.

**Admission Requirements:**

Bachelor’s degree from an accredited or approved institution

60 credits in general education or liberal learning in an undergraduate program

Passing score on a State approved test of basic skills (e.g.) GRE or Praxis Core—not the same as the Praxis exam for certification). **Master of Education in Educational Leadership options include Traditional (EDAD_MED01), Immersion (EDAD_MED03), and Global (EDAD_MED04)**

Donald Leake, Coordinator, Graduate Programs in Educational Leadership

The Educational Leadership Program of study at The College of New Jersey provides a comprehensive forum for reflective practice as an instructional leader. The program is designed to recognize the key role leadership plays in creating and sustaining schools that help all students achieve high standards. The program seeks to shape the educational
practices, their conceptual underpinnings, and the leadership professions that serve both public and private schools. The Educational Leadership Program also seeks to develop the knowledge, wisdom, and imagination of its students to enable them to take leadership positions nationally and internationally. Graduates of the Educational Leadership Program are employed as principals, assistant principals, directors, and supervisors in public and private school systems.

The program is designed to serve as a confluence of three leadership experiences: a cognitive experience wherein one learns to think like a leader, a moral experience where one learns to think and act in a responsible and ethical manner, and a practical experience where one learns to perform like a leader. More specifically, the program is intended to reflect what Shulman (2005) calls “signature pedagogies of the profession.” That is, a mode of teaching that has become inextricably identified with preparing people for a particular profession. Mindful of this notion of signature pedagogies, students who enter the educational leadership program should expect the following:

- A relevant and challenging curriculum where professors use an approach to teaching that makes extensive use of active learning pedagogies such as case studies, simulations, and problem-based learning.
- A clinical experience will be an intricate part of every course in the program. Students should anticipate and plan for a field experience as part of each course. Students will be required to provide documentation of at least 200 hours of “course-specific field” experience before he/she is permitted to register for the internship experience.
- Each course will reflect a mix of practical and theoretical concepts and will blend classroom instruction with the student's clinical experiences. The “course-specific field” experience will provide numerous opportunities for aspiring school leaders to apply new learning in authentic settings.
- The signature pedagogies are thus designed to be pedagogies of engagement and are ultimately intended to teach students to think like, act like, and be like a school leader.
- Based on what successful leaders do in their schools, the program consists of three curriculum modules designed around what effective leaders need to know and be able to do. Students are required to complete the modules in the manner as prescribed by the department and/or explicated by the program coordinator. Programs are aligned with national standards and approved by the New Jersey Department of Education.

Traditional Master's Degree Strand (EDAD_MED01) — The 36-credit Program for School Leaders is intended for those students seeking to complete the program at their own pace. Coursework emphasizes meaningful, practical, active learning based upon problems school leaders encounter and upon the core issues of schooling, curriculum, and instruction. The program is practice-oriented and geared to prepare students to meet the challenges of school leadership. This program is also available through the College’s global program. Upon completion, participants will be eligible to apply for the initial certification for a New Jersey School Principal License, as well as a Supervisor Certification, provided the candidate meets all requirements of the current New Jersey Administrative Code. Master of Education in Educational Leadership—Instruction (EDAD_MED05)

(in Partnership with The Regional Training Center)

Alan Amtzis, Director, Graduate Program in Educational Leadership: Instruction

The Master of Education (MED) in Educational Leadership: Instruction program addresses the teacher within the context of the classroom, as well as the greater educational community, with regard to school-wide teacher reform, teachers’ professional development, and teacher leadership. The reflective practices of self-study, teacher research, and classroom inquiry provide a thematic curricular link throughout the program. The Regional Training Center (RTC) has been providing quality graduate course work in education throughout the Mid-Atlantic region since 1993. TCNJ has been the New Jersey partner in providing sponsorship for graduate RTC programs offered throughout the state since 2000. This partnership has grown to include the Master of Education in Educational Leadership: Instruction, which will include both on- and off-campus work.
