School of Business

Mission Statement
The mission of the School is to educate students to become successful professionals and socially responsible citizens, ready to contribute to the demands of the evolving business environment. Deliver application-oriented business programs that merge theory with practice and prepare students to obtain positions of responsibility and leadership in a complex, technological, global, and multicultural world.

Master of Business Administration (MBA)
Stephen Tomkiel – MBA Director
Our professionally accomplished faculty engage students in experiential learning through interactive pedagogy and participation in leadership opportunities – including research, conferences, networking, global perspective, and mentoring.

The MBA degree requires 42 academic credits (approximately 14 courses). The lockstep curriculum is designed to be completed in two years. The T-Style curriculum delivers a focused specialization in the first year followed by the MBA Core.

The program is a combination of online learning with face-to-face instruction, all led by accomplished faculty. Students meet in class for eight hours on Saturdays, six times in the fall and spring, plus four times in the summer. Winter courses are offered all online.

Specializations:
Data Analytics – The data analytics specialization will provide contemporary analytic skills for complex business decision-making
Strategy, Innovation and Leadership – The specialization is designed to create leaders of change. Organizations survive and prosper by challenging the status quo and by finding new ways to deliver value. Students will explore organizational and individual processes that lead to innovative ideas, products, and services.

Students will think strategically, gain new insights on how people and organizations work, and develop managerial skills that will enable individuals to lead others in change initiatives.

Finance (Begins Fall 2020) – Specializing in finance allows students to build in-depth understanding in financial theory and to acquire various quantitative/analytic tools.
