Global Graduate Programs

Overview
The mission of The College of New Jersey Global Programs is to create exemplary professionals by providing focused professional graduate studies in education, grounded in current best practices, in preparation for our students to take instructional or leadership positions in international schools throughout the world.

Coordinated by Off-Site Graduate Programs (OSGP), our programs in professional education comprise an extensive, integrated, and focused collection of experiences that are recognized worldwide and serve to expand the influence of the College and its mission. Through its global graduate programs, TCNJ offers a number of degrees, certificates, and professional development options to educators throughout the world at international sites. Additionally, students enrolled in any of our on-campus (Ewing, NJ) graduate programs are welcome to participate in summer global graduate studies.

General Site Information
Students may enroll in courses during the summer sessions at OSGP’s global site in Portugal or online, and also during winter/spring/fall sessions online. Please visit https://offsitegrad.tcnj.edu/ or contact the office via email (osgp@tcnj.edu) for more information.

Performance Learning Systems (PLS)
Off-Site Graduate Programs and Performance Learning Systems (PLS) work together to offer innovative, online graduate courses to meet the academic and professional needs of those who wish to take advantage of the benefits of an online learning experience. At present, students may enroll in the following graduate courses: Learning to Read (VC PD 530), Reading to Learn (VC PD 540) and Secondary Content Methods (VC PD 590), which are offered in the fall and spring terms.

To learn more about content and schedules for the courses, see the PLS website at https://www.plsclasses.com/.

VCPD 530/Learning to Read: Beginning Reading Instruction (Online) 3 cr.
Learn to implement a balanced, integrated approach to teaching, beginning with reading centered on scientific strategies aligned with state and national reading research initiatives. These specially designed curriculum resources and teaching strategies will enhance the reading and learning processes across all areas of the curriculum. Teachers will have access to an interactive software and other resources designed to offer every student the opportunity to succeed in learning to read.

- Apply a balanced and integrated approach:
  - Teach phonemic decoding, comprehension strategies, and literature appreciation.
  - Encourage independent reading, using a variety of types of texts.
  - Explore relationships among words to teach vocabulary.
  - Use writing to foster greater understanding of text.
- Develop effective practices for teaching reading proficiency skills:
  - Phonemic awareness
  - Phonological awareness
  - Decoding
  - Fluency
  - Comprehension
- Prevent reading failure through intervention and assessment:
  - Screen students using informal assessments.
  - Monitor students’ progress.
  - Establish an effective intervention system.

VCPD 540/Reading to Learn: Comprehension Instruction (Online) 3 cr.
Discover the best ways to help your students construct meaning from what they read. Examine scientifically based comprehension strategies and learn how to adapt them to your classroom and/or content area. Assess student progress and adjust your teaching to become more effective.

- Understand how to teach reading comprehension:
  - Analyze the latest reading comprehension research.
Examine the importance of effective reading-comprehension instruction across the curriculum.

Determine the variables related to successful reading comprehension, including learner characteristics, aspects of text, the reading task, motivation and engagement, and students' use and transfer of strategies.

- Implement effective reading comprehension practices:
  - Provide appropriate reading comprehension strategies for diverse learners.
  - Develop instructional practices that help students interact with texts to enhance meaning.
  - Provide meaningful, productive vocabulary instruction.
  - Use informal and formal assessments to diagnose students' needs.
  - Develop and implement intervention strategies for individual learners.
  - Select and develop appropriate instructional materials that align with state and local standards.

**VCPD 590/Secondary Content Method (Online) 3 cr.**

This course examines the content in the secondary school content curriculum standards and helps students make connections among the higher-level courses they have taken in college and the material taught in secondary schools. Students study the content and pedagogy appropriate for teaching high school curriculum content standards. They enhance their familiarity with national standards and the New Jersey Core Curriculum Content Standards and examine standards-based teaching and curricula in light of current education research. Students learn that problem solving is central to all of teaching and learning and that it is to be incorporated as a central theme in their own instructional practices. Students also examine research on how adolescents learn presented curriculum content, and they learn instructional strategies for teaching course work to children from diverse cultures and ability levels.
